BUSY LIFE ENDED BY CALL OF DEATH

Edmund P. Noble, Citizen, Financier and Public Officer.

First President of Board of Public Works and President of Globe Bank.

HIS WAS SUCCESSFUL CAREER.

Mr. Edmund P. Noble died this morning at the Illinois Central hospital at 8:30 of complications following an operation performed last Friday

night on June 30 and his condition was considered serious from the first He was removed to the hospital by his physicians, Dr. D. G. Murrell and Dr J. Q. Taylor, and on the morning of July 5 an operation was performed by Dr. Harvey K. Mudd, of St. Louis assisted by Dr. Murrell and Dr. Taylor. The operation was thought to have been successful but the patient did not rally as expected. He was given a little nourishment yesterday morning, but about 8 o'clock last night showed signs of sinking and at 1 o'clock his life was despaired of, death coming this morning.

All of the immediate family, except W. Y. Noble, a broth.r, who was in Nashville and Miss Mamie Noble, a IMMENSE DRYDOCK COMPLETES sister, who is in Chicago, was at the bedside.

Mr. Noble was one of the most prominent citizens of Paducah, and his sickness and death caused universal sorrow. While not born here, he has been identified with the city's growth in many ways and has seen Padueah grow from a village to its present progressive stage, to which he contributed no little part. As a merchant, financier, a member of the exenutive department of the municipal government and adviser to many city administrations, he made his impress

on the progress of the city.

He was born in Louisville August 4, 1847, and removed with his parents, Col. John C. and Mrs. Elizabeth Noble, deceased in his early youth The family came to Paducah in 1857, when Col. John C. Noble started the publication of the Paducah Herald, associated with his father for a while. four hours. This was his first business venture. Later he took the local agency of the Bryan & Thompson Tobacco commisslop company, which had headquarters at New Orleans. The firm ceased Delaware Will Double Record for the operations, and with Frank Miller, in the fall of 1881, Mr. Noble organized the firm of Ed P. Noble & company, January, and the late Col. T. H. Purwhich continued for twelve years as one of the most successful firms in Paducah, Col. Puryear retired in 1892 and the firm of Noble. Overbey company succeeded to the busines. which continued until 1904, when it was sold to Covington Bros. & com

Mr. Noble was an indefatigable worker, and his business ventures were markedly successful. He was in terested in branch stores in severa llocalities, one being the branch of Noble, Overbey & company, at Paris, Tenn. He earned and desired a rest from great activity which prompted him to dispose of the firm of Noble Overbey & company.

Becomes a Banker.

He did not remain inactive long, however, for only a few months after retiring from the grocery business he was induced to take the presidency of the Globe Bank and Trust company, vice E. W. Smith, who retired to remove west. He accepted the position at a critical period in the life of the institution, but with his acumen he soon brought it to a prosperous con-

His Official Career.

Mr. Noble's official connection with the municipal government began with his election to the presidency of the aldermanic board, when the city was transferred to the second class.

His work in the board was conspicuous for its impartiality and its disregard of political influence. He was a legislator for the people and in appreciation of his excellent work in the board he was prevailed upon to accept the presidency of the board of public made equally as enviable record in

Plans for organizing a West Kentucky Immigration bureau are being and members of the Commercial Southwestern Kentucky to participate in the movement.

In speaking of the enterprise Sec-

retary Coons said: "I believe with the surrounding movement, of course, is southern, but we wish to concentrate our efforts on this section and get the first good out

of the influx of foreign farmers. "By so large a territory inviting immigration we can offer greater inducements. The cost will not be any greater than for this county to work alone and by dividing the expense among so many, it will not be felt by anyone. Of course, it is unnecessary to say that whatever prospers any part of western Kentucky is bound to have its effect on every other part, so there really is no selfish reason, why we should attempt to limit the scope of our work to Me-Cracken county, You can readily see how much easier it will be to induce immigration, if a wide territory like the west end of the state should extend the invitation instead of just

"Steamship companies and agents of railroads will aid us, but we must prepare data on the subject for distribution and possibly send a representative across the water. If we can enlist the co-operation of other counties in the movement, the cost will be nominal on all.

"Think of the result of an increase of 500 families of working people in this section. Everyone of the desirable immigrants are wealth producers, and we want no other kind. So much derogatory of immigrants has been said that the people generally have become unthinkingly prejudiced against foreigners. We must recollect that our ancestors were foreigners. The majority of those, who can trace their ancestry back for the length of days that place them among the "first families" will find they sprang from "immigrant stock." It is the "padrone imported" foreigners who flock to the cities, settle in colonies and live and think as they did at home, that constitute the menace to this country. The thrifty foreigner, who settles in the country and adopts agricultural pursuits, becomes a good American, is a wealth-producer and raises an industrious, healthy family.

POLITICIANS ARE UP IN ARMS.

Hon. Edward H. Puryear, formerly city solicitor, and one of the ablest attorneys practicing at the local bar, has been appointed to succeed the late David Lillard Sanders as police judge, and this morning was sworn in and held his first court.

Mayor D. A. Yelser, who under charter has the power of appointment, made the selection last night, after learning Attorney Puryear would accept. He immediately forwarded his appointment to Governor Beckham for ratification.

Judge E. H. Purvear has been resident of Paducah since his youth and has practiced at the local bar for fourteen years. Of late his work has been chiefly abstracting, and on ac-

Judge Purvear is an able man fully ocrat all his life and will make the city a good official. He will serve out the unexpired term which will be filled at the next regular November elections.

Mayor Yelser had none but complimentary words for Mr Cross when his name was mentioned but politicians haven't yet learned to fathom the smile of "Uncle Dave." He made up his mind that Purveau was the man and that was the end of

He didn't even tell the city hall crowd when he intended making the appointment. He just announced it when he got ready, and then they commenced on him. They tried to get him to retract after the appointment had been announced. The governor had been importuned until they found he had not the authority

The appointment has been snt to the governor for approval, and it is intimated that some of the precipitate friends of the "other rellows" will try to hold up the appointment at Frankfort. However, "His Honor" stands pretty close to the throne himself, and it is not likely anything will come of the tempest.

Daily Thought,

"Investments in knowledge pay the best interest."

Paducah essentially is a river town An hour's time satisfies the stranger that Paducah's strongest bid for pros- predecessor perity lies in the presence of the great waterways, at the junction of which she is so happily situated. Moreover, the newcomer, familiar with the water front scenes of the large cities like Cincinnati and Louisville, is astounded at the shipping constantly visible in the Paducah harbor. Almost as chase should not be increased by many boats will be seen in a day around Paducah during the ordinary season as will come within view of Cincinnati or Louisville in a week. typical, hardy American citizens, Paducah is a river town and her actual tonnage outranks any other city on the river. It does very well for the stranger to come in on the train, Panama setting the force to work: cantile firm of Noble, Overbey & comand, standing in Paducah, gaze at tho river. But, O, the mortification of it! Think of a stranger coming in on the river and looking at Paducah! Great Teddy may be away, but the boys are heaps of refuge, trash scattered for blocks, broken wagons, abandoned small boats, pieces of iron, machinery, tin cans-anything, in fact, that nobody wants on his premises, is dumped on the river front, whence Paducah sprang into being. It's a pity ground was not reserved for a river front wood park; but the least we can do now, is to clean it up and make our industrial back yard look as presentable as circumstances allow. It's a disgrace to have it continue thus. During the summer thousands of excursionists pass up and down the river, never stopping at any intermediate port, British Atlantic fleet to take on Ambut carrying reports of their trips and scenes along the river to their homes. Their opinion is worth something to Paducah. And, then, even if they are blind, it is gratifying to our own consciousness to know we are clean.

In the midst of a life already blessed with success beyond that attained by the average man, in the fullness of health, at the heighth of his business career, earning the esteem of his fellow citizens, Edwin P. Noble's untimely death is unusually sad. He had more to live for, it seemed, than most men: more to make life a blessing to himself and others. He money back nian warve has had served the city well and faithfully, he had been trusted with grave business responsibilities and proved equal to the task, He had built himself a new home-built it just as he and his wife desired it, had furnished it to suit their taste, and they were preparing to enjoy life, as only it can be enjoyed in a home, when death laid its ruthless hand upon him and turned the mansion to a house of mourning. Companion words thesehome and life, and the memory of Edwin P. Noble will be none the dimmer by the thought, that among his chief ambitions realized was a home that he loved.

One thing is certain: Tom Taggart's business enterprises will never attain the heights of governmental investigation. They will be subjected AMBIGUOUS CONSOLATION.

Light Committee of General Council Meets.

Listens to Arguments of Representatives of Electric Companies Present.

TO IMPROVE THE CITY'S PLANT.

A direct current system of street ighting will be recommended by the light and power committee to the council. This was decided at the meeting of the committee vesterday afternoon.

Ther were two systems advocated by the different representatives of the electrical manutacturing concerns, who appeared before the committee. They are technically known as the direct and alternating systems. The alternating system has the advantage of being used either for street lighting or commercial lighting or both. The direct system can be used only for street lighting

John W. Holmes the consulting engineer to the committee, recommended the alternating system, and Supt. Keebler, of the city light plant, recommended the direct system. If the direct system is installed, the engine and bollers now at the plant can be used only as auxiliary help, while they would be available if the alternating

system were adopted. Discussion of the relative merits of the two systems sounded like this;

"Taint." The representatives of the electrical concerns so regularly contradicted each other in advocating the two systems, that the committee laughed each time a new representative was intro-

The representative of the Westinghouse Machine company was positive that the direct system was what the city wanted. The representative of the General Electric company followed and after offering cigars all around, substantially said the other fellow did not know what he was talking about, and to prove his sincerity offered to bring one of his house's lights here for a practical test which proposition the committee acepted. It will be tried out next week.

Charges of peonage were made vesterday at Beattyville by a negro formerly employed by a contractor operating a rock -crusher, and the federal grand jury will be called on to make an investigation. An attorney at Beattyville has confirmed the negro's statements in part.

JOHN ROBINSON SHOWS.

Big Historical Spectacle—Battle o Wounded Knee.

To speak of the merits of John Robnson's ten big shows combined is merely"love's labor lost"with the people of this nation. There is not an amusement lover on the continent that is not cognizant of the fact that it is now and has ever been the best among the best. Everybody does not know, however, that during the last winter's vacation the show has received augmentation so vast and , so important as to dwarf by comparison even its own great exhibitional excellence. We allude to the grand reproduction of the Battle of Wounded Knee in which innumerable people are active participants, and which is complete in scenographic effect, typical personages and events profific in pageantic and processional features, and conspicuously portraying events, scenes and incidents of the famous battle This eminently historical spectacle will commend itself to every lover of the historical. One thousand soldi rs, Indians, scouts and horses are

OPERATION AVOIDED **EXPERIENCE OF MISS MERKLEY**

She Was Told That an Operation Was Inevitable. How She Escaped It.

When a physician tells a woman suf-fering with serious feminine trouble that an operation is necessary, the very thought of the knife and the operating table strikes terror to her heart, and our hospitals are full of women coming for just such operations.

There are cases where an operation is the only resource, but when one considers the great number of cases of menacing female troubles cured by Lydia E. Pinkham's Vegetable Compound after physicians have advised operations, no woman should submit to one without first trying the Vegetable Compound and writing Mrs. Pinkham, Lynn, Mass., for advice, which is free.

Miss Margret Merkley, of 275 Third Street, Milwaukee, Wis., writes: Dear Mrs. Pinkham;

Dear Mrs. Pinkham:

"Loss of strength, extreme nervousness, shooting pains through the pelvic organs, bearing down pains and cramps compelled me to seek medical advice. The doctor, after making an examination, said I had a female trouble and ulceration and advised an operation. To this, I strongly objected and decided to try Lydia E. Pinkham's Vegetable Compound. The ulceration quickly healed, all the bad symptoms disappeared and I am once more strong, vigorous and well."

Female troubles are steadily on the increase among women. If the monthly periods are very painful, or too frequent and excessive—if you have pain or swelling low down in the left side, bearing-down pains, don't neglect your-self: try Lydia E. Pinkham's Vegetable

MUTUAL BENEFIT LIFE INSURANCE CO.

The Only Company Represented in Western Kentucky which has not, some time in its history, discriminated among policy holders

Taking advantage of the unfortunate to pay the more fortunate who lived through and paid through certain periods. This is a pretty broad assertion, but we can prove it to your satisfaction in fifteen minutes. If you need life insurance (and you most certainly do need it) at least investigate the company whose

Rates Are Lowest, Dividends Are Highest, Contracts Are Most Liberal.

The recent investigations in the East have brought out the fact that The Mutual Benefit is the most economically managed company in America today. For 'our months our company was under fire and your guaranty of honest treatment lies in the fact that we emerged triumphant, unbesmirched at the end.

Don't experiment when so important a matter as the protection of your family is at stake. Seek the company which you can feel CONFIDENT will give you proper protection. Just call on or write their manager,
